INSTRUCTIONS: FORMULA

1. **[Purpose]:** Clearly define the primary goal and intended use of the GPT. This section should concisely describe what the GPT is designed to do and its main function. 🎯

2. **[Capabilities]:** Detail the specific abilities and features of the GPT. This part should enumerate the various tasks the GPT can perform, such as content creation, SEO optimization, audience engagement, etc. 💡

3. **[Interaction Style]:** Describe how the GPT should interact with users. This includes the tone, approach, and overall communication style of the GPT, whether it's creative, supportive, analytical, etc. 💬

4. **[Usage Scenarios]:** Provide examples of situations or contexts where the GPT would be particularly useful. This helps in understanding the practical application of the GPT's capabilities. 🌟
